## ART REPRODUCTIONS ON CANVAS OR PAPER

### GICLEE SETUP AND PROOFING

**180.00**

This fee includes digital reproduction of your original via HiRes Direct Capture, or careful Drum Scanning; both methods serving well for a foundation to provide faithful reproduction free of digital artifacts. Also included in the Setup are two phases of proofing involving client interaction to allow for interpretive decisions to be made jointly by the Artist and Printmaker working closely together. These proofs will be produced at approx. 1/3 to 1/2 the size of the final size. The final signature proof will be archived in our file as a master reference for subsequent additional reproductions.

### HOW TO CALCULATE SQUARE INCH PRICE:

**(Image Length w/ border) x (Image Height w/border) = total sq. in.**

Size	1-4 prints	5-11	12+
1-100 square in.	\$ .25	\$ .21	\$ .17
101- 700 square in.	\$ .20	\$ .18	\$ .15
701+ square in.	\$ .15	\$ .13	\$ .11

Any size prints can be made up to 60 x (any length) using high-end Epson and Canon printers.

### SUBSTRATE CHOICES:

Crane, Hahnemuhle, Somerset, and many more...please enquire for the best substrate for your project.
